

PUREOXY

HEALTHIER **OXYGEN** ENRICHED
SWIMMING POOLS FOR YOU &
THE **ENVIRONMENT**

PUREOXY

PUREOXY

PureOxy[®] from Watch Water[®] is a blended shock treatment for pools and whirlpools. This proprietary blend contains no chlorine and plays a very important part in maintaining healthy water. Formula PureOxy[®] simplifies your water treatment program so you won't need to add multiple chemicals to prevent green or cloudy water-FORMULA 'PUREOXY'

Shocking the pool and whirlpool water will burn off additional contaminants deposited in the water through rains, winds, and organic bather waste.

The powder is added to the water weekly. The PureOxy[®] combines most of the typical ancillary chemicals into, one easy weekly treatment rather than adding multiple chemicals separately. Add PureOxy[®] and it is so gentle that you can swim in 10 minutes after use and no need to wait for hours or days for the pool to become safe after shocking with chlorine.

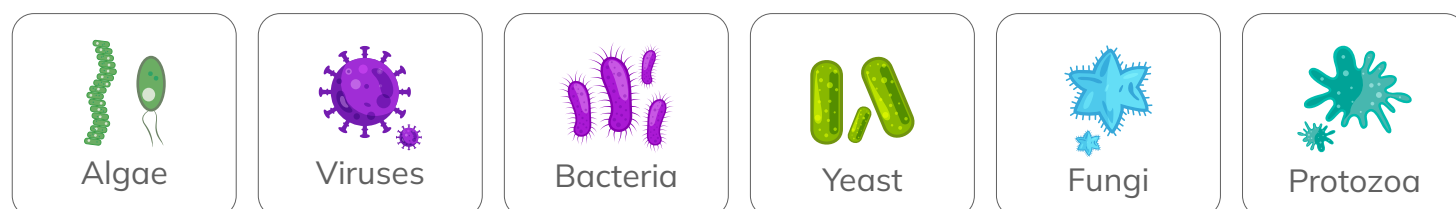

- ❖ No Chlorine (NC)
- ❖ Hydroxyl Radicals (OH)
- ❖ Atomic Oxygen (O₁)
- ❖ Hydrogen Peroxide (H₂O₂)
- ❖ Molecular Oxygen (O₂)

“ Healthy Mineral-Rich
Pool Water ”

HEALTHIER FOR YOU AND THE ENVIRONMENT

THE POWER OF OXYGEN

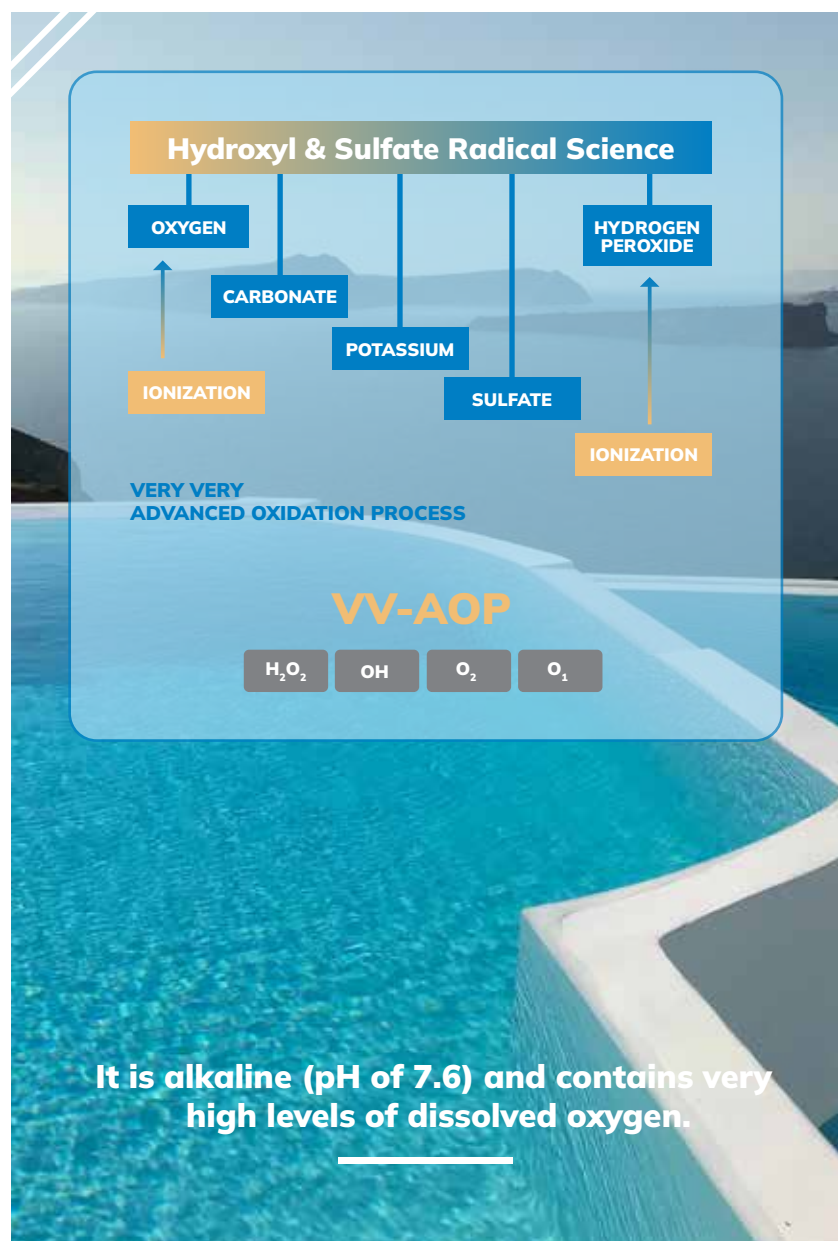

Using an Advanced Oxidation Process (AOP) the combination of oxygen technologies generates powerful natural oxidizers, hydroxyl (OH), atomic oxygen (O_1), hydrogen peroxide (H_2O_2) and Oxygen (O_2) from the water molecule itself.

Dissolved oxygen in the pool is combined with persulfate ionization to provide long-lasting healthy and natural sanitizing residual in the water. Since potassium oxidizers are more powerful than chlorine or ozone and hydroxy (OH) radicals produce a sanitizing residual in the water. PureOxy® pools do not require chlorine or other sanitizing chemicals!

This AOP also produces high levels of oxygen (O_2) in the water which is stable and accumulates to saturation levels in the pool.

Dissolved Oxygen (DO) in the pool water acts as a healthy sanitizing residual in the water to inactivate viruses, bacteria, and algae to disinfect the water naturally and beneficially.

HEALTHIER FOR YOU AND THE ENVIRONMENT

Four Separate, **organic, inorganic, chemical free** processes to sanitize and purify water. All these beneficial effects of **high-quality treated water** help to strengthen the immune system.

- ❖ Water free of Microorganism
- ❖ Water that's safe to drink
- ❖ Water that heals the body
- ❖ Health-promoting effect of the 4th phase of water
- ❖ Energizing effect
- ❖ Improved skin cell metabolism
- ❖ Antioxidative effect
- ❖ Organic, super soft, natural, sparkling, clean oxygen-rich water

Chemical free

Oxygen enriched water is very healthy water. Oxygen not only destroys harmful viruses, bacteria, molds, algae, etc in the water but is highly beneficial, therapeutic and rejuvenating to the swimmer.

- ❖ No more red-burning eyes & Dry skin
- ❖ No more chloramines
- ❖ No more Trihalomethanes (THMs)
- ❖ No more cancer risks
- ❖ No more damaged hair after swimming
- ❖ Extremely beneficial for eczema and psoriasis

How to use PoolOxy?

WATER HARDNESS	DOSING RATE
<10° dH	15 grams/m ³
10° - 20° dH	20 grams/m ³
>20° dH	30 grams/m ³

Maintained Dissolved Oxygen Water
